

Agricultural.

To Make one Farm equal Three.

G. T. Stewart, Esq., in a recent Address before the Ohio Agricultural Society, thus speaks of this subject:

Many farmers who are destroying the productiveness of their farms by shallow work, as they find that their crops are diminishing, think only of extending their area, by adding acres of surface, as if they supposed their title deeds only gave them a right to six inches deep of earth. If they will take those deeds, study their meaning, and apply the lesson to their fields, they will soon realize in three-fold crops the fact that the law has given them three farms where they supposed they had but one—in other words, that the subsoil brought up and combined with the top soil, and enriched with the atmospheric influences, and those other elements which agricultural science will teach them to apply to their ground, will increase three-fold, the measures of their productiveness. To show to what extent the fertility of the soil can be increased I refer to a statement in the Last Patent Office Report. In the year 1850 there were nine competitors for the premium corn crop of Kentucky, each of whom cultivated ten acres. Their average crop was one hundred and twenty-two bushels per acre. At this time the average crop of wheat per acre in the harvest of Great Britain, on a soil cultivated for centuries is about double that production on the virgin soil of Ohio. Why is this? Simply because British farmers are educated men and apply their work wisely. They pay back to the earth what they borrow; they endeavor by every means in their power, to enrich their ground, and in return it enriches them. If our farmers, instead of laboring to double their acres would endeavor to double their crops they would find it a vast saving of time and toil, and an increase of profits.

Many of them never think of digging ten inches into the soil, unless they have dreamed about a crock of gold hid in the earth; but if they would set about the work of digging in earnest, every man would find his crock of gold, without the aid of dreams and divination. We have great advantage over the British farmers in the fact that nearly all our farmers hold the land they cultivate in fee simple, while in England they are chiefly tenants, hiring the land of nobility, paying enormous rents, to the proprietors, besides heavy taxes to government. Taxes here are comparatively light, and our farmers are their own landlords. Hence they have been able to pay three-fold wages for labor in proportion of those paid in Europe, pay the cost of transportation, and yet undersell the British farmers in their own market.

Balky Horses.

Balky or fibblish horses, are not only a source of annoyance, but too frequently endanger property and peril the lives of their owners. An East India gentleman one day took his seat in one of the omnibuses, in London, but at the time of starting all the efforts of the driver proved unavailable owing to a balky horse attached to the vehicle. The poor animal became more and more restive in proportion to the tortures inflicted upon him by the driver, and several other whippers who assisted on the occasion. The street became blocked up with spectators, and the interruption of other carriages.—Great danger was to be apprehended.—The East India gentleman, above referred to suggested to the driver and his assistants that if they would try the East India method of fastening a long rope to the horses fore-foot, and cause a person to pull forward, the animal would start right away. The suggestion was received with contempt. However after all other efforts failed a long cord was attached to the animals fore-foot and the moment the man gave a strong pull the horse started forward as if nothing had been the matter. The philosophy of the case seems to be that the animal, throw off the centre of gravity by the propulsion forward, is taken by surprise and obliged to start. Try it.

Bone Wens.

I noticed an inquiry for a cure of wens; I have a recipe which I have used and has effected a cure. Take equal parts of indigo dissolved in wine and soft soap; apply it quite warm with a swab two or three times a day. This I have tried on a calf six months old, and on a two year old, and effected a cure.—N. E. Farmer.

Blind Staggers in Hogs.

A correspondent of the Michigan Farmer, directs, as a remedy for this disease, to bleed them in the third wrinkle in the roof of the mouth. My practice is to throw the hog on the back and cut across the wrinkle, and I have never had a cure that did not effect a cure.

My friend, Mr. Farmer.—John Neal predicts that the time will come when a man's perspiration will be turned to account as steam, and drive him up hill like a locomotive.

\$500 CHALLENGE.

Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually chargeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy:—

Hobensack's Worm Syrup.
An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, & can be given to the most tender Infant with decided beneficial effect, where *Bowel Complaints* and *Dyspepsia* have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands with, out an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with *Dyspepsia*, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

The Tape Worm!
This is the most difficult Worm to destroy of all that infest the human system.—It grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach affecting the health so sadly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is the Tape Worm hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of Tape Worm.

Hobensack's Liver Pills.
No part of man is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Rhubarb* and *Plaster* furnished by nature to heal the sick: Namely 1st, An *Expectorant*, which augments the secretion from the Pulmonary mucous membrane, or promotes the discharge of secreted matter. 2d, An *Alterative*, which charges in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A Cathartic, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

To Females.
You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangements to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.

Cure of Consumption,

Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The *Lung Balsam* prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this *System of Cure* the patient knows what he is doing—knows that he is not shortening his days by the use of anodynes or mercurials, which may seem to Relieve but never Cure. He knows when using this *Life-saving Balsam*, that he is taking mild, pleasant, efficacious remedies, such as *Nature prescribes*, for the ill he children suffer. The ingredients composing this *Lung Balsam* are obtainable (cheaply too) wherever consumption exists, proving that Every ill has its antidote. Consumptive patients may Rely on this recipe.—(all Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to Make their own Medicine at a Trifling Cost. I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculating purposes.

Proof of its Goodness.

JACKSON, Mich. March 21, 1851.
DOCT. S. TOLSEY.—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev Mr. Blaichard will write you for a recipe. Respectfully yours, O. F. POOL.

Stroudsburg and Easton

Port Jervis, Mauch Chunk and Scranton

STAGE LINES.

The Stroudsburg and Easton mail line of stages, consists of excellent four horse coaches, and leaves J. J. Postens' Indian Queen Hotel, Stroudsburg, Pa. every day (except Sundays) at 7 o'clock A. M. arriving in Easton before the departure of the cars for New York, or stages to Bethlehem and Allentown.

The following lines leaves Postens' Indian Queen Hotel, Stroudsburg, Pa. every Monday, Wednesday and Friday, returning on alternate days:

A line to Port Jervis, leaving at 7 o'clock A. M. via Bushkill, Dingman's Choice and Milford. Returning, leaves Port Jervis immediately after the arrival of the morning train of cars to New York, at about 8 o'clock A. M.

A line to Mauch Chunk, leaving at 7 o'clock A. M. via Broadheads, where it connects with lines to Wilkes-Barre and White Haven.

A line to Scranton, leaving at 4 o'clock A. M. via Bartonsville, Tannersville, where it connects with a line to Honesdale, and connecting at Scranton with the cars for the west.

These lines hold out strong inducements to the traveling public—passing through sections of the country which are as magnificent and picturesque as any in the Union.

Having provided themselves with excellent coaches, good horses, and careful drivers, they feel confident that they will be enabled to give entire satisfaction to all who will patronize them.

B. A. FARNESTOCK'S VERMIFUGE.

A SURE REMEDY FOR WORMS.

The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend & prescribe it in their practice. The retail price is 25 cents per vial which brings it within the means of all.

Brooklyn, L. I. January 16, 1847.
I do certify that I gave one bottle of B. A. Farnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson st's. JAMES McCARTHY.

Poughkeepsie, N. Y. March 2, 1844.
I certify, that I took two vials of B. A. Farnestock's Vermifuge, which I found to be the greatest cure for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Farnestock's Vermifuge. I therefore recommend it.

ESOTERIC ANTHROPOLOGY.

BY T. L. NICHOLS, M. D.

PRINCIPAL of the American Hydropathic Institute, Educational and Therapeutic, at Portchester, N. Y., one hour's distance from New York city on the New York and New Haven Railroad. A comprehensive and confidential Treatise on the Structure, Functions, Passional Attractions and Perversions, True and False Physical and Social Conditions, and the most intimate Relations of Men and Women.

The title, Esoteric Anthropology, will seem strange to many, but it is thoroughly appropriate. Anthropology is from *Anthropos*, a man, and *Logos*, a description. Esoteric, from *Eso*, within, signifies private, secret, interior, and was used by the ancient philosophers to distinguish their private lectures, given in the interiors of their dwellings, upon the sacred mysteries of science and philosophy, to their chosen disciples, from their *Exoteric* discourses, which were given to the public. *Esoteric Anthropology* is, therefore, a private treatise on Human Anatomy, Physiology, Therapeutics and Obstetrics—on the whole science of man—plain in language, full and faithful in illustration, and written with all the frankness of a private letter, under the seal of professional confidence. It contains the highest and deepest truths in every department of Human Physiology, with their individual and social application; the true nature and hidden cause of Disease; the conditions of Health, physical and passional; all that information which every human being needs, which few dare ask for, or know how to obtain, but which, amid the discordances and depravities of civilization, is of priceless value.

There are many subjects connected with the broad science of Human Life, of the deepest and most vital interest to man and the race, in regard to which a terrible ignorance every where prevails; an ignorance which is destroying the healths, shortening the lives, and sacrificing the happiness of millions—which threatens the power of nations, and the perpetuity of races.

Professional works on Physiology are dry, mechanical, or chemical, astonishingly ignorant, as well as technically incomprehensible. The popular works are superficial, meager, and necessarily wanting in the most important matters. The quick books are full of errors, false in science, absurd in philosophy, mischievous in morals, and basely mercenary in their motives. In most cases these books are the advertising medium of some specious charlatan, who wants patients, or letters of consultation, or who has some instrument to sell, or some nostrum to palm off upon the credulous.

The world has need of a different book from any of these—a such a book as has never been written, and as cannot now be published in the usual way, sold by booksellers, or hawked by agents or peddlers. The author of *Esoteric Anthropology*, a Teacher, a Physician, a public and private Lecturer on all branches of Medical Science, has written this book with a frankness he never could have used in a work for the public, or one open to criticism. It is for his pupils and patients, for intelligent men and women, who wish to understand the deepest mysteries of life; especially it is for the noble and heroic few, who are brave enough to examine and accept new truths, and wise enough to profit by them. There can scarcely be any important question, which any man or woman can ever need to ask a physician, to which this volume does not contain an answer. It is so complete in this respect, that the author hopes and believes that no one who reads it will ever need to trouble himself with a professional consultation. It is henceforth his chosen method of medical instruction and practice, and in it he has performed the duty he owes mankind as a healer of the sick, a preserver of health, and a teacher of the Laws of Life.

Among the subjects treated of in this work, are the following: Man, and his relations to the Spiritual and Material Universe; Human Anatomy; the Chemistry of Man; Principles of Physiology and the Active Forces of Nature; The Three Groups of Functions, Organic, Animal, and Generative; The whole Philosophy and Processes of Reproduction; The True Law of Marriage; The Conditions; Health; Causes of Disease; Curative Agencies; Processes of Water-cure; Diseases and Treatment; Passional Diseases; Diseases of the General System; Brain and Nerves; Respiration; Digestion; Generation; Gestation and Parturition; Lactation and the Management of Infancy, &c., &c., including every important condition and process from the beginning to the close of life, and containing especially—

1. A clear and amply illustrated view of the structure of the human body, and all its complex organism, male and female.
2. A full account of the functions of life, with such an illustrated description of the evolution of the embryo, as has not before been given.
3. All that is known of health and disease, with the means for the preservation of the former, and cure of the latter.
4. So careful an explanation of the whole process of gestation and childbirth, as will enable every woman to dispense with the services of a physician or professional midwife.

ESOTERIC ANTHROPOLOGY is plain and simple in language, full in illustration, as comprehensive as the utmost curiosity can wish, and without one line of quackery, or the remotest hinting at a fee.

It must be evident that such a book, written with the necessary freedom, and illustrated with fullness and fidelity, must not be profaned. It is not for the counter, the book-stall, the library shelf, or the center table. It is not to be offered for curious examination, nor urged upon those who can not appreciate its value. It is advertised, that every one who needs it may obtain it, if he will. Whether the social proprieties be true or false, the author can not violate them, and he feels compelled to keep this book truly esoteric, a private work, to be sent as a confidential answer to a professional consultation, and he trusts that no person will apply for it who will not make it a point of honor to consider it.

To all such persons it will be sent BY MAIL, to any designated address, POST PAID, on the receipt of One Dollar, sent free of postage, to T. L. NICHOLS M. D. Portchester, N. Y.

HORSES MADE SOUND

BY THE

Horse Owner's Secret,

Being a new and certain remedy for the speedy

Cure of Heaves,

By SIR JAMES LYNDONTON,

Principal Farrier to his Royal Highness Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for the Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says:

Dr. Hoofland's celebrated German Bitters

PREPARED BY

Dr. C. M. Jackson,

at the German Medicine Store, 120 Arch st. Philadelphia. Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

Read and be Convinced.

From the Boston Bee.

The editor said, Dec. 22nd—Dr. Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

"SCOTT'S WEEKLY," one of the best literary papers published, said, Aug. 25—

"Dr. Hoofland's German Bitters," manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

More Evidence.

The Hon. C. D. Hineine, Mayor of the City of Camden, N. J., says:

"Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

"If this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to female or infant with safety and reliable benefit at any time.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.
